

Switch a DisplayPort display between eight computers

EXT-DP-841

Switches a high-definition DisplayPort display between eight DisplayPort-equipped computers

Switch between eight computers (each using one graphic DisplayPort output) effortlessly, using the Gefen 8x1 DisplayPort Switcher.

Users can switch video to any computer, through the front panel "select" button, using the supplied IR remote control, or via the RS-232 serial port.

The 8x1 DisplayPort Switcher is compatible with all operating systems using DisplayPort.

How It Works

Connect one DisplayPort high-definition display to the 8x1 DisplayPort Switcher output. Connect the DisplayPort outputs on up to eight computers to the 8x1 DisplayPort Switcher input using the supplied cables.

NOTE: If the sources and/or display are not 100% DisplayPort compliant, a protocol-specific adapter will be required in order to connect the non-compliant source to the Switcher, or to connect the Switcher to the non-compliant display.

Features:

- Switches one high-definition display between eight DisplayPort-equipped computers
- Switches up to 2560 x 1600 resolution
- Supports RGB and YCbCr color spaces
- Rack mountable
- Jack for external IR Receiver (EXT-RMT-EXTIR)
- Save space on your desktop

Specifications:

- Maximum Resolution: 2560 x 1600
- USB 2.0 Speed: 480 Mbps
- Video Input Connectors: (8) DisplayPort (from computers)
- Video Output Connector: (1) DisplayPort (to display)
- IR Extender Connector: (1) 3.5mm mini-stereo jack
- RS-232 Control Connector: (1) DB-9 Female
- Power Supply: 5V DC
- Dimensions: 17.1" W x 1.75" H x 4.25" D (1 RU)

Package Includes:

- (1) 8x1 DP-841 Switcher
- (8) 6-foot DisplayPort cables
- (1) 5V DC Universal Power Supply (Locking Type)
- (1) IR Remote Control (RMT-4IR)
- (1) Set Rack ears
- (1) User Manual
